# GMA: Unemployment biggest problem

**By Ed Calaguag**

MANILA (PDI) — Unemployment remains the most serious problem facing the country, according to a survey conducted by the Philippine General Market Association (PGMA).

The survey, conducted by the PGMA, found that unemployment is the most serious problem facing the country, followed by inflation and the cost of living.

The survey also found that the government should take more steps to create jobs and reduce unemployment.

The PGMA is a group of business and industry leaders who are concerned about the economic situation in the Philippines.

The survey was conducted in Manila and other parts of the country.

The results of the survey will be used by the PGMA to lobby for government action to address the unemployment problem.

## Little relief for overseas workers in trouble

**Manila**

The Overseas Workers Welfare Administration (OWWA) has announced that it will provide financial assistance to overseas workers who are in trouble.

The OWWA is a government agency that provides welfare services to overseas workers.

The announcement comes in response to a request from the Philippine Overseas Laborers' Union (POLU).

The POLU is a union of overseas workers who are represented by the OWWA.

The OWWA will provide financial assistance to overseas workers who are in trouble, such as those who are unemployed or who are having difficulty supporting their families.

The OWWA will also provide other welfare services to overseas workers, such as medical assistance and legal assistance.

## 60 Filipino teachers in US to lose jobs

Figure 1 is a schematic diagram of the experimental setup. It shows a participant sitting at a table, looking at a video screen. On the screen, there is a target (a small circle) and a starting point (a larger circle). The participant's hand is positioned at the starting point. The diagram illustrates the visual feedback loop where the participant sees their hand's position on the screen and adjusts it to reach the target. Labels include 'Participant', 'Video Screen', 'Target', 'Starting Point', and 'Hand'.

### Big rocks

**O**ne of the most important factors in the success of a business is the quality of its customer service. This is because customers are the lifeblood of any business, and without them, a business would not be able to survive. Therefore, it is essential for businesses to provide excellent customer service at all times.

**Unit 8**

1.  $\frac{1}{2}$  of the total number of students are female.  
 2.  $\frac{1}{3}$  of the total number of students are male.  
 3.  $\frac{1}{4}$  of the total number of students are female.  
 4.  $\frac{1}{5}$  of the total number of students are male.  
 5.  $\frac{1}{6}$  of the total number of students are female.

**Abstract**

The purpose of this study was to determine whether there were differences in the prevalence of periodontitis between patients with type 2 diabetes mellitus (DM) and non-diabetic controls. The study included 60 patients with DM and 60 age- and sex-matched non-diabetic controls. All participants underwent a clinical examination of their periodontium. The results showed that the prevalence of periodontitis was significantly higher in the DM group compared to the non-diabetic controls. This suggests that DM may be a risk factor for periodontitis.

### Postscript to a defection

71

Figure 1 consists of 16 micrographs arranged in a 4x4 grid. The rows are labeled P1, P2, P3, and P4, representing different bacterial strains. The columns are labeled Control, 100% ethanol, 100% acetone, and 100% methanol, representing different treatments. Each micrograph shows the growth of *P. aeruginosa* on a 1% agar surface. The Control column shows robust growth for all strains. The 100% ethanol column shows varying degrees of growth inhibition, with P1 and P2 showing more growth than P3 and P4. The 100% acetone and 100% methanol columns show almost complete inhibition of growth for all strains, with only very faint traces of growth visible in some panels.

Figure 1 is a 3D bar chart titled "Effect of temperature on the growth of *E. coli* O157:H7 in ground beef". The vertical axis (Y-axis) is labeled "log<sub>10</sub> CFU/g" and ranges from 0 to 10. The horizontal axis (X-axis) is labeled "Time (h)" and ranges from 0 to 100. The depth axis (Z-axis) is labeled "Temperature (°C)" and has values 4, 10, 16, 22, 28, and 34. The chart shows that growth is highest at 34°C and lowest at 4°C. At 34°C, growth reaches approximately 10 log<sub>10</sub> CFU/g by 100 hours. At 28°C, growth reaches approximately 8 log<sub>10</sub> CFU/g by 100 hours. At 22°C, growth reaches approximately 6 log<sub>10</sub> CFU/g by 100 hours. At 16°C, growth reaches approximately 4 log<sub>10</sub> CFU/g by 100 hours. At 10°C, growth reaches approximately 2 log<sub>10</sub> CFU/g by 100 hours. At 4°C, growth is minimal, reaching approximately 1 log<sub>10</sub> CFU/g by 100 hours.

Figure 1 consists of two scatter plots. The left plot shows a positive correlation between the number of children and the number of children in the household. The right plot shows a negative correlation between the number of children and the number of children in the household.

Temperature (°C)	Rate
0	0
10	3.5
20	7.5
30	9.0
35	9.5
40	9.0
50	8.5
60	8.0
70	7.5
80	7.0
90	6.5
100	4.5

Figure 1 illustrates the experimental setup. A participant is seated at a table, looking at a screen. The screen displays a 'START' button and a 'GO' button. A 'Response' box is also shown. The participant is instructed to press the 'GO' button when the 'START' button is lit. The diagram includes labels for 'Participant', 'Screen', 'START', 'GO', 'Response', and 'Response box'.

Manila, July 10 (AP) — President Corason Aquino's cabinet reshuffle has left the political scene in a state of flux. The reshuffle, which took place last week, saw the removal of several key figures from the cabinet, including the Justice Secretary and the Secretary of the Department of Education. The reshuffle was seen as a move to strengthen the administration's position in the face of growing opposition. The new cabinet members were sworn in on Monday, and the President expressed his confidence in their ability to carry out their duties. The reshuffle was also seen as a move to address the concerns of the public, who had been critical of the previous cabinet's performance. The new cabinet members are expected to work closely with the President to implement his policies and to address the challenges facing the country.

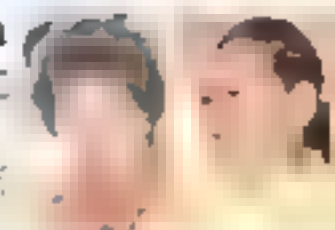

A group of people, including President Corason Aquino, are seen in a formal setting, possibly a press conference or a meeting.

## Tito's first advice to FPJ: Talk longer

Manila, July 10 (AP) — President Corason Aquino's first advice to President Ferdinand Marcos Jr. was to talk longer. The President said that he had spoken to President Marcos Jr. on Monday and that he had given him the same advice that he had given to all the other presidents of the Philippines. The President said that he believed that President Marcos Jr. would follow his advice and that he would be able to lead the country to a better future. The President also said that he was confident that President Marcos Jr. would be able to handle the challenges facing the country. The President's advice was seen as a sign of his support for President Marcos Jr. and his confidence in his ability to lead the country.

## Aussies waffle on KP bananas

Manila, July 10 (AP) — The Australian government's stance on the Philippines' request for a trade agreement with the European Union has been seen as waffling. The Australian government has been reluctant to support the Philippines' request, which has led to frustration on the part of the Philippines. The Philippines has been seeking a trade agreement with the European Union for several years, but it has been unable to reach an agreement. The Australian government's stance has been seen as a major obstacle to the Philippines' efforts to reach an agreement. The Philippines has expressed its disappointment with the Australian government's stance and has said that it will continue to seek a trade agreement with the European Union. The Philippines has also said that it will continue to work with the Australian government to resolve the issue.

## 2 KAP Senate bets

Manila, July 10 (AP) — Two candidates for the Senate of the Philippines have been seen as strong contenders for the position. The candidates are both well-known figures in the political scene and have both received significant support from the public. The candidates are expected to be sworn in as senators in the coming months. The candidates' victory would be seen as a major victory for the administration and would strengthen its position in the Senate. The candidates have both expressed their confidence in their ability to carry out their duties as senators and to represent the interests of the people.

**Answer:** The student has to compare the amount with the company's net worth. The net worth is calculated as follows:

For 3 months, the author visited the study participants in their homes, and collected data on their experiences with the program. The author also conducted interviews with the program staff and the community health workers.

As a result, the *g* value for the  $\gamma$  rays was found to be 0.45, which is in good agreement with the value of 0.46 reported by other workers [10].

## B. L. Lacey, B. J. Offenberg

**I**n the United Kingdom, setting up a new business is a relatively simple process. Starting a new business is a relatively simple process. Starting a new business is a relatively simple process.

the system is not a simple matter of adding more computers to the network. "You have to look at the architecture of the system and see how it can be scaled," says John H. Dwyer, a senior research scientist at the University of Illinois at Urbana-Champaign. "You have to look at the architecture of the system and see how it can be scaled."

In developing such a new platform, we had to start with a clean slate. We had to build a new architecture, a new database, and a new user interface. We had to build a new system that could handle the complexity of the new data and the volume of the new data. We had to build a new system that could handle the complexity of the new data and the volume of the new data.

There is no doubt that the climate debate is the hottest subject of politics in Israel today, and that the Israeli public is in a position, and has the capacity, to decide the outcome of the debate. The role of journalists, like Thomas, has never been more vital, and it will be the Israeli journalists in particular who

The state is now the second largest provider of health care in the world, according to the U.S. Census Bureau. The state is now the second largest provider of health care in the world, according to the U.S. Census Bureau.

```

// Create new array
var newArray =
    new Array(10);
// Assign values
newArray[0] = 1;
newArray[1] = 2;
newArray[2] = 3;
newArray[3] = 4;
newArray[4] = 5;
newArray[5] = 6;
newArray[6] = 7;
newArray[7] = 8;
newArray[8] = 9;
newArray[9] = 10;
// Print out the array
for (var i = 0; i < newArray.length; i++)
    Console.WriteLine(newArray[i]);
// Print out the length
Console.WriteLine(newArray.Length);

```
